Question 12

You are designing a Task Management System for a small team. The system should include the following features:

1. User Login and Role Assignment
2. Task Creation and Assignment
3. Task Prioritization and Deadlines
4. Progress Tracking and Reporting

Task: Prioritize these requirements using the MoSCoW and Kano models in Jira.

Step 1: Log in to jira account and create a new space from left side panel and select kanban template

Step 2: Give the name of project

← Back to templates

Name your space

Required fields are marked with an asterisk *

Name *
Online learning platform

How your space is managed *
Company-managed

Ask Rovo

Priorities

Add priority

...

Add new priorities or edit the priority order by moving it up or down, or setting it to a specific position number.

Order	Icon and name	Description	Color	Schemes	Actions
1	highest	This problem will block progress.		Default priority scheme	
2	high	Serious problem that could block progress.		Default priority scheme	
3	medium	Has the potential to affect progress.		Default priority scheme	
4	Low	Minor problem or easily worked around.		Default priority scheme	
5	Lowest	Trivial problem with little or no impact on progress.		Default priority scheme	

Edit priority
