

14 Question

Demonstrate how to work collaboratively in Git/GitHub on a project using the fork-and-pull request workflow. Fork an existing public repository, clone it to the local machine, create a new branch, make a modification or add a new feature, commit and push the changes to the branch, create a pull request to the main branch, review the pull request and provide feedback, respond to the feedback with additional commits, and merge the approved pull request into the main branch. Finally, submit the pull request link along with a summary of the changes made and the collaboration process.

Step 1: Fork the Public Repository

Create a new fork

Fork created

 main  1 Branch  0 Tags

 Go to file

 T

Add file

 Code

This branch is up to date with [rntr03/Simplybyte_calculator:main](#).

 Contribute

 Sync fork

 Dockerfile	Add files via upload	2 months ago
 calculator.html	Add files via upload	2 months ago
 server.js	Add files via upload	2 months ago

README

Step 2: Clone the Forked Repository

1. Open your forked **Simplybyte_calculator** repository.
2. Click the green **Code** button.
3. Select **HTTPS**.
4. Click the **Copy** button to copy the repository URL.
5. Open **Visual Studio Code**.
6. Create/open a folder where you want to store the project.
7. Click **Terminal → New Terminal**.

Step 3: Create a New Feature Branch

Step 4: Modify the Project

Step 5: Check the Changes

```

remote:
To https://github.com/bhavya13139/Simplybyte_calculator.git
* [new branch]      add-calculator-feature -> add-calculator-feature
branch 'add-calculator-feature' set up to track 'origin/add-calculator-feature'.
PS C:\Users\Bhavya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git branch
* add-calculator-feature
main
PS C:\Users\Bhavya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git status
On branch add-calculator-feature
Your branch is up to date with 'origin/add-calculator-feature'.

Changes not staged for commit:
  (use "git add <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        modified:   calculator.html

no changes added to commit (use "git add" and/or "git commit -a")

```

Step 6: Add and Commit the Changes and push the feature branch

```

no changes added to commit (use "git add" and/or "git commit -a")
PS C:\Users\Bhavya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git add calculator.html
PS C:\Users\Bhavya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git commit -m "Updated message based on review feedback"
[add-calculator-feature d562efb] Updated message based on review feedback
1 file changed, 1 insertion(+), 1 deletion(-)
PS C:\Users\Bhavya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git push
Enumerating objects: 5, done.
Counting objects: 100% (5/5), done.
Delta compression using up to 12 threads
Compressing objects: 100% (3/3), done.
Writing objects: 100% (3/3) 485 bytes | 485.00 KiB/s  done

```

Step 7: Create a Pull Request

The screenshot shows the GitHub web interface for the repository 'Simplybyte_calculator' by user 'bhavya13139'. The repository is public and forked from 'mtr03/Simplybyte_calculator'. The current branch is 'main', and there are 2 other branches. A yellow banner indicates that the 'add-calculator-feature' branch has recent pushes 1 minute ago, with a green 'Compare & pull request' button. Below this, a table lists the files in the 'add-calculator-feature' branch: 'Dockerfile', 'calculator.html', and 'server.js', all added 2 months ago. The 'README' section is partially visible at the bottom. The right sidebar shows repository statistics: 0 stars, 0 watching, 0 forks, and no releases or packages published. The Windows taskbar at the bottom shows the date as 08-08-2026 and time as 10:09.

Step 8: Review the Pull Request

The screenshot shows a web browser window displaying a GitHub pull request. The browser's address bar shows the URL: `https://github.com/rnt03/Simplybyte_calculator/compare/main...bhavya13139:Simplybyte_calculator:add-calculator-feature?expand=1`. The page title is "bhavya13139 / Simplybyte_calculator". The navigation bar includes links for Code, Pull requests, Agents, Actions, Projects, Wiki, Security and quality, Insights, and Settings. The main content area is titled "Open a pull request" and includes a sub-header: "Create a new pull request by comparing changes across two branches. If you need to, you can also compare across forks. [Learn more about diff comparisons here.](#)". Below this, there is a comparison bar showing "base repository: rnt03/Simplybyte_calculator" with "base: main" and "head repository: bhavya13139/Simplybyte_calculator" with "compare: add-calculator-feature". A green checkmark indicates "Able to merge. These branches can be automatically merged." Below the comparison bar, there is a section "Add a title *" with a text input field containing "Added new calculator feature". To the right of the input field is a "Helpful resources" link to "GitHub Community Guidelines". Below the title section is a section "Add a description" with a text area containing the following text: "This pull request adds a new feature to the calculator project. A new message was added to the calculator page to demonstrate the feature. The changes were developed in a separate branch and pushed to GitHub". The bottom of the screenshot shows a Windows taskbar with various application icons and a system tray displaying the date and time as "10:14 08-08-2026".

Step 9: Create the Additional Commit and push the additional commit

```

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL PORTS
PS C:\Users\Bhavaya\OneDrive\Desktop\Github_Experiments\Simplybyte_calculator> git branch
