

5.Using Raptor – Draw and validate a flowchart for a given string of lower case English alphabets. One can choose any two characters in the string and replace all the occurrences of the first character with the second character and replace all the occurrences of the second character with the first character. Using Raptor draw and validate the flowchart lexicographically smallest string that can be obtained by doing this operation at most once.

Algorithm

1. Start
2. Input the string S
3. Set best = S
4. For each character c1 from 'a' to 'z'
5. For each character c2 from c1+1 to 'z'
6. Copy S into temp
7. Replace every c1 with c2
8. Replace every c2 with c1
9. Compare temp and best
10. If temp is lexicographically smaller
 - best = temp
11. Repeat for all character pairs
12. Output best
13. Stop
